***RE: Revised KU Private Outdoor Lighting Tariff***

Dear Mr. DeRouen:

When filing the revised tariff of Kentucky Utilities Company ("KU") following the approval of new rates by the Kentucky Public Service Commission ("Commission") in Case No. 2009-00548, the Commission staff made an inquiry about two types of KU special lighting contracts which are not currently on file at the Commission. Due to an inability to locate many of these contracts due to their age, KU is proposing to revise Original Sheet No. 36 for Electric Rate Schedule P.O.L.T. – Private Outdoor Lighting to include the current rates of these special lighting customers who receive service for 20,000 Mercury Vapor lights and 50,000 High Pressure Sodium lights pursuant to bill codes 408 and 409, respectively. Enclosed for filing is an original and ten copies of the revised rate schedule.

Through this filing, KU is proposing to add these specific lights on a restricted basis only to existing customers who receive service pursuant to bill codes 408 and 409. As the proposed revision merely reflects rates currently charged to existing customers, there is no effect on KU's existing rates or customers. Therefore, the Company requests an effective date of January 6, 2011. Please contact me should you have any questions.

Sincerely,

Robert M. Conroy
